Engagement Models for the US Projects

“Outsourcing grows during bad times to reduce costs but it grows during good times to concentrate on core business.”

Indus while working for different projects for the US in different models, has gained sufficient experience to execute the projects in the following engagement models:

Model	What is it?	Ideal for projects	Benefits
Fixed Cost & Time	Agreed cost and delivery time	a) With clear specifications & sufficient data b) With medium to low level of risks c) Low complexity	a) Mitigated risk to the stake holders b) Fixed cost and time
Time & Material	Effort & time estimated at each stage and changed accordingly	a) With large duration, where specifications evolve with project progress b) Of large scale complex projects	Best suitable solution for the business problems is evolved
Facility outsourcing	Dedicated facility with resources and infrastructure for exclusive use	Of large business houses looking for dedicated offshore development centre	Have a dedicated offshore development centre in quick & structured fashion with minimum risk.

The customers can confidently choose any of the above models with Indus, as we have sufficient hands-on experience with each one of the above models.
